**Company Recruitment Team**

*Credit Suisse*

August 13,2017

Dear Sir/ Madam,

I am interested in applying for an Internship at Credit Suisse for the summer of 2018. I am a third year B.Tech Student, pursuing the field of Computer Science.

My technical skills include advanced knowledge in programming languages like C and C++. As a part of the course work,I have done projects on Database Management System and Object Oriented Programming.I have also had hands-on experience with tools like Google Test as part of my project work.

In addition to my technical skills, I possess excellent written and verbal communication skills. As an Event Manager of a technical club at college, I am also very comfortable in working with, as well as heading, a group of people to complete a given task successfully.

Based on the technical and extra personal skills required, I see myself as a strong applicant for the role of an intern at Credit Suisse and this internship would benefit me in broadening and improving my skills set.

Thank you for your time and consideration.

**Yours Faithfully,**  
**Nihala Karapoola**
